TESTIMONIALS

"Her organizational, communication, and leadership skills were among the most remarkable I've seen as both a national journalist and a professor, and her creativity and self-initiative mean she is constantly thinking of new ideas and new ways to carry them out, and then getting started on those that she's carefully considered and found feasible. Summer doesn't waste time: she does what needs to be done, and she does it exceptionally."

-Tara Haelle, Author of The Informed Parent

"Her abilities never ceased to amaze me... Summer has excellent communication skills that allow her to connect easily with others and effectively share information."

-Katrin Sanders, Red Cross Representative

"Summer Slevin works tirelessly to market her clients. She is able to find unique and creative forms of advertising to bring in the specific customers your business is targeting. Her services pay for itself!"

-Cassandra Hustedt, Store Manager of Brainstorm Escapes
